PROFESSIONAL SUMMARY

I bring a solid 5-year background in both frontend and backend development, gained across diverse industries including Insurance and IT Service providers. My extensive expertise encompasses the complete project lifecycle, from inception to deployment.

I have successfully led a 5-member software development team in the creation of a fully functional application for a partner client, demonstrating leadership and collaborative skills. My proficiency in frontend development extends to crafting websites and applications that are accessible across various platforms, prioritizing user experience.

My technical skillset includes 5 years of hands-on experience with JavaScript, HTML, CSS, React.js, Node.js, REST API, MongoDB, and MySQL. I am well-versed in web application design, coding, test script management, root cause analysis, and continuous development practices, all within an Agile development lifecycle.

Furthermore, I possess a strong track record of API integration and efficient data management in database systems. My commitment to delivering high-quality solutions and my ability to adapt to evolving technologies make me a valuable asset in any development team.

EXPERIENCES

MARCH 2021 – FEBRUARY 2023
FULL-STACK DEVELOPER, PRULIFEUK PH

I am a Full Stack Developer at PruLifeUK PH with a strong track record in platform and application architecture and maintenance.

I automate workflows, streamline data extraction, and generate reports for the technical support team. Root cause analysis and error resolution are my strengths, and I constantly enhance application performance through collaboration.

Proficient in crafting requirement documents and delivering high-quality code within deadlines, I excel in translating client needs into functional features. I prioritize project analysis and data visualization to optimize functionality.

I thrive in Agile environments, actively contribute to feature development, and possess strong debugging skills. Technologies I use include ReactJS, Node.JS, MongoDB, HTML, CSS, JavaScript, Redux, GitHub, and MySQL.

Skills

- JavaScript
- MySQL
- React.JS
- MongoDB
- Node.JS
- CSS
- Redux
- React Native
- Restless and Serverless API
- GitHub
- Git
- AWS Lambda, EC2,
- CI/CD setup
- WordPress
- PHP
- Laravel ● Ubuntu

APRIL 2018 – JANUARY 2021
WEB DEVELOPER, IT MATTERS

As a Web Developer at IT Matters, I've built and maintained numerous projects, ensuring their ongoing functionality.
I develop various web-based applications, including ReactJS, Node.JS, WordPress, and Laravel, with expertise in creating responsive WordPress websites and enhancing them with hooks.
I proficiently manage databases in MySQL, MongoDB, PostgreSQL, and Firebase and use CSS, HTML, and JavaScript to create websites from scratch.
I play a pivotal role in maintaining and debugging company websites, enhancing both their appearance and performance.
I provide comprehensive program documentation for end-users and have a track record of improving existing applications.
My technical skills include ReactJS, Node.JS, HTML, CSS, JavaScript, MySQL, MongoDB, PostgreSQL, Firebase, Azure, Rest APIs, and AWS.

- JavaScript
- MySQL
- React.JS
- MongoDB
- Node.JS
- CSS
- Redux
- React Native
- Restless and Serverless API
- GitHub
- Git
- AWS Lambda, EC2, S3
- CI/CD setup
- WordPress
- PHP
- Laravel ● Ubuntu

EDUCATION

JUNE 2016 – APRIL 2020 BACHELOR OF SCIENCE IN HOTEL & RESTAURANT MANAGEMENT

ASIAN DEVELOPMENT FOUNDATION COLLEGE
